DH24PB2 15/16" SDS Plus Rotary Hammer

The DH24PB2 2-mode 15/16" Rotary Hammer drills holes in concrete, tile, and brick. With a chuck adapter, this model can drill holes in steel, wood as well as tighten and loosen both machine and wood screws. Applications include installation for air conditioning, piping and plumbing, electrical work, interior decoration and other civil engineering, construction and repair work.

DH24PC2 15/16" SDS Plus Rotary Hammer, Reversible, Variable Speed

The DH24PC2 3-mode 15/16" Rotary Hammer drills holes in concrete, tile, and brick. With a chuck adapter, this model can drill holes in steel and wood as well as tighten and loosen both machine and wood screws. The DH24PC2 can also do light duty chiseling of concrete as well as groove digging and edging. Applications include installation for air conditioning, piping and plumbing, electrical work, interior decoration and other civil engineering, construction and repair work.

DH24PF 15/16" SDS Plus Rotary Hammer

The DH24PF 15/16" Rotary Hammer drills holes in concrete, tile, brick, steel, wood and similar materials. With three function modes, drilling only, hammering only, drilling & hammering, the DH24PF is great for air conditioning installation, piping and plumbing, electrical and interior applications, as well as other civil engineering, construction and repair work.

DH25PB 31/32# SDS-Plus Shank Rotary Hammer, VSR, 2-Mode

The DH25PB Rotary Hammer offers the end-user 2 modes of operation. It's #rotation and striking# mode can be used to drill anchor holes in concrete, tile and brick. The #rotation only# mode can be used in conjunction with the chuck adapter to drill holes in steel and wood or tighten machine/wood screws.

DH30PC 1-3/16# Rotary Hammer, SDS-Plus, VSR, 3-Mode

2005 Best Value Winner Awarded by Taunton Press. The DH30PC Rotary Hammer offers the end-user 3 modes of operation. It's #rotation and striking# mode can be used to drill anchor holes in concrete, tile and brick. The #rotation only# mode can be used in conjunction with the chuck adapter to drill holes in steel and wood or tighten machine/wood screws. The third mode is the #striking only# mode. This mode has the ability to strip mortar and tiles, demolish and chisel concrete and groove or cut bricks.

Electric Power Tools > Hitachi Electric Power Tools > Concrete & Masonry > Rotary SDS MAX

DH40MR 1-9/16# SDS Max Shank Rotary Hammer, 2-Mode

The DH40MR SDS Max Rotary Hammer features a drilling speed that is 10% faster than similar products, while at the same time, produces lower vibration and noise levels than other tools in its class. With an increase in performance, operability and durability the DH40MR takes rotary hammers to a new level.

DH50MB 2# SDS Max Shank Rotary Hammer

The DH50MB SDS Max 2" Rotary Hammer is used for crushing, chiseling, grooving, edging, cutting, stripping, compacting/tamping, roughing concrete surfaces, drilling concrete and drilling anchor bolt holes. Applications include installation of air conditioning, piping and wiring, electric fixtures, sanitary facilities, interior finishing and other building, construction and repair work.

Electric Power Tools > Hitachi Electric Power Tools > Concrete & Masonry > Rotary Spline

DH38YE 1-1/2# Rotary Hammer, 2-Mode, Spline Shank

The DH38YE Spline Shank 1 1/2" Rotary Hammer is used for crushing, demolition, groove-digging, edging, trimming, removal of concrete, drilling concrete and drilling anchor bolt holes. Applications include installation of air conditioning, piping and wiring, electric fixtures, sanitary facilities, interior finishing and other building, construction and repair work.

DH40FR 1-9/16# Spline Shank Rotary Hammer

The DH40FR Spline Shank Rotary Hammer features a drilling speed that is 10% faster than similar products, while at the same time, produces lower vibration and noise levels than other tools in its class. With an increase in performance, operability and durability the DH40FR takes rotary hammers to a new level.

DH50SBK 2# Spline Shank Rotary Hammer

The DH50SBK Spline Shank 2" Rotary Hammer is used for crushing, demolition, groove-digging, edging, trimming, removal of concrete, drilling concrete and drilling anchor bolt holes. Applications include installation of air conditioning, piping and wiring, electric fixtures, sanitary facilities, interior finishing and other building, construction and repair work.

Electric Power Tools > Hitachi Electric Power Tools > Concrete & Masonry > Demolition Hammers

H65 1-1/8# Hex Demolition Hammer

The H65 1 1/8" Hex Demolition Hammer crushes concrete, grooves and channel digs in concrete, asphalt and gravel roads. This model is also capable of cutting asphalt for road construction and repair. This model is not available in Canada.

H85-H85KIT#H85KIT2#H85KIT4 1-1/8# Hex Demolition Hammer, Oil Bath

The H85 1 1/8" Hex Demolition Hammer crushes and grooves concrete, cuts asphalt, digs gravel roads for applications such as air conditioning, piping and wiring, sanitary facility construction, water and supply drainage, port facilities, road construction and various other civil engineering construction and repair work.

H90SB#H90SBKIT-H90SBKIT2-H90SBKIT4 1-1/8# Hex Demo Hammer

The H90SB 1 1/8" Hex Demolition Hammer crushes concrete, cuts asphalt and grooves and channel digs in both concrete and gravel roads

H60MB SDS Max, VSR, Demolition Hammer

The H60MB SDS Max Demolition Hammer demolishes and chisels concrete. This model is also capable of edging, gravel road digging, compacting/tamping, grooving, cutting, stripping and roughing.

H55SCK Demolition Hammer 3/4# Hex

The H55SCK 3/4" Hex Demolition Hammer crushes and chips concrete. This model is also capable of edging, grooving, cutting and peeling. Applications include installation of piping/wiring, sanitary facilities, water supplies/drains, harbor facilities and other civil engineering works.

H45MR SDS Max Shank Demolition Hammer

The H45MR SDS Max Demolition Hammer improves on the performance, durability and operability of its predecessors by producing 40% more impact energy (now the highest in its class), 45% less vibration and a 30% reduction in tool exertion.

H45FRV Spline Round Hex Demolition Hammer

The H45FRV Spline Demolition Hammer improves on the performance, durability and operability of its predecessors by producing 40% more impact energy (now the highest in its class), 45% less vibration and a 30% reduction in tool exertion.

C6DC2 18V 6-1/2# Circular Saw, Electric Brake

The C6DC2 18V Cordless Circular Saw is equipped with a 6-1/2# saw blade capable of cutting a 2x4 piece of wood with a single pass even at an angle of 45 degrees. It easily powers through various wood material.

C7BD2 7-1/4# 15 Amp Circular Saw with Electric Brake

Engineered for heavy-duty performance this circular saw has a powerful 15 Amp motor for ripping OSB, 2x4#s, plywood and other typical framing materials.

C7D 24V 7-1/4# Circular Saw, Electric Brake

The C7D 24V Cordless 7-1/4" Circular Saw is highly durable and can cut through larger work pieces in a short amount of time. It powers through various types of wood materials easily and efficiently.

C7SB2 7-1/4" 15 Amp Circular Saw

2005 Best Value Winner Awarded by Taunton Press. Engineered for heavy-duty performance, this circular saw has a powerful 15 Amp motor for ripping OSB, 2x4's, plywood and other typical framing materials.

C7YA # C7YAH 7-1/4# Dust Reducing Circular Saw

The C7YA 7 1/4" Dust Reducing Circular Saw cuts fiber cement board

C8- 8-1/4#, 13 Amp Circular Saw

The C8 8 1/4" Circular Saw cuts various types of wood materials.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Reciprocating Saws

CR13V 10 Amp Reciprocating Saw

The CR13V features the highest cutting speed in its class. Designed with a powerful 10Amp motor, the CR13V gives users the power and speed needed for any job.

CR13VA Reciprocating Saw, Electronic Variable Speed

The CR13VA#s powerful 11Amp motor tackles any application with power to spare.

CR18DV 18V Reciprocating Saw, Variable Speed

The CR18DV 18V Reciprocating Saw cuts pipes, angle irons, steel bars, soft steel, aluminum, various wood materials such as window frames, bakelite, and vinyl chloride.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Table Saws

C10FL 10" Stationary Table Saw

The C10FL 10" stationary table saw makes long straight rip cuts and repeated cross-cuts.

C10FR 10" Jobsite Table Saw

The C10FR 10" jobsite table saw makes long, straight rip cuts and repeated cross cuts. It performs many of the functions of a larger stationary table saw, but is designed for portability. The C10FR can be used on the jobsite or also in shops with limited space.

C10RA2 Table Saw with Stand

The C10RA2 10" Table Saw is engineered for rip-sawing and cross-cutting of ordinary wood, hardwood, plywood, composite wood materials, and plastics. The C10RA2 comes equipped with a stand.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Jig Saws

CJ120V Jig Saw Electronic Variable Speed, Orbital

Lightweight and powerful, this jig saw is contractor ready and woodworker savvy with its heavy-duty 5.8 Amp motor, tool-less blade changing system, 4-stage orbital cutting and efficient dust collecting system.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Miter Saws

C10FCE 10" Compound Miter Saw

The C10FCE 10# Compound Miter Saw features an all-new design. It cuts various types of wood, plywood, decorative panels, soft fiberboard, hard board and aluminum sashes.

C10FCH 10" Compound Miter Saw (With Laser Marker)

The C10FCH 10# Compound Miter Saw features an all-new design and is equipped with the laser guide system. It cuts various types of wood, plywood, decorative panels, soft fiberboard, hard board and aluminum sashes.

C10FSB 10# Sliding Dual Compound Miter Saw

The C10FSB 10# Sliding Dual Compound Miter saw is equipped with a high fence to support the work piece for stable cutting. Positive stoppers adjust the turn table position for easy miter cutting. The C10FSB cuts various types of wood, plywood, decorative panels, soft fiberboard, hard board and aluminum sashes.

C10FSH 10# Sliding Dual Compound Miter Saw with Laser Marker

The C10FSH 10# Sliding Dual Compound Miter saw is equipped with a high fence to support the work piece for stable cutting and a laser marker for precision cuts. Positive stoppers adjust the turn table position for easy miter cutting. The C10FSH cuts various types of wood, plywood, decorative panels, soft fiberboard, hard board and aluminum sashes.

C12FCH 12# Compound Miter Saw with Laser Marker

The C12FCH 12# compound miter saw features an all new aggressive design is equipped with Hitachi's exclusive laser marker system. It cuts various types of wood, crown molding, plywood, decorative panels, soft fiberboard, hardboard and aluminum sashes with ease.

C12FSA 12# Sliding Dual Compound Miter Saw

The C12FSA Dual Sliding Compound Miter Saw is designed specifically for the professional trim carpenter because it allows crown molding to be cut and beveled while laying flat, instead of standing up against a fence, providing for incredible accuracy. And with a 12" blade and thus larger cutting capacities, this tool is a sharp addition to Hitachi's line of miter saws.

C12LC 12" Compound Miter Saw with LCD Display

The C12LC 12" Compound Miter Saw with LCD display takes the guesswork out of miter and bevel readings. It features Hitachi's all new aggressive design and cuts various types of wood, crown molding, plywood, decorative panels, soft fiberboard, hard board and aluminum sashes with ease.

C12LCH 12" Compound Miter Saw with LCD Display & Laser Marker

The C12LCH 12" Compound Miter Saw with Laser Marker features an all new design and a revolutionary LCD (Liquid Crystal Display) that takes the guesswork out of miter and bevel readings. It cuts various types of wood, crown molding, plywood, decorative panels, soft fiberboard, hardboard and aluminum sashes.

C15FB 15# Miter Saw

The C15FB is the ONLY 15" Miter Saw in the industry. This model cuts various wood materials, plywood, decorative veneer, soft fiberboard, hardboard and aluminum products such as sash and siding.

C8FB2 8-1/2# Sliding Compound Miter Saw, Twin Rail

The C8FB2's predecessor was the 1st Sliding Compound Miter Saw in the industry. The C8FB2 cuts various wood materials as well as aluminum sash materials.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Band Saws

CB13F 12" Stationary Band Saw

The CB13F 12" stationary band saw cuts thick stock, thin veneers and makes tight curved cuts when equipped with narrow blades. It is excellent for heavy rip sawing and decorative work on thick stock.

CB75F Band Saw

The CB75F Band Saw cuts various wood materials, tenons and fixtures. The CB75F can be used for tilted/angled cutting operations as well as curve cutting via the use of various narrow-width band saw blades.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Cut-Off Tools

CC12Y 12# Portable Cut-Off Saw, AC/DC

The CC12Y 12" Cut-off Saw cuts sheet metal, concrete, cinder blocks, bricks, reinforcing rods, concrete wire mesh, corrugated floor and ceiling forms.

CC14SE 14# Portable Cut-Off Machine

The CC14SE 14# Cut-of Machine is equipped with a first class double-insulated aluminum housing that is unique to Hitachi and greatly strengthens the tool. The CC14SE cuts pipes, shaped steel, round bars and various steel materials.

CD14F 14# Portable Dry Cutting Saw for Metal

The CD14F 14" Dry-Cutting Metal Saw cuts round pipe, square pipe and flat mild steel. Applications include installation of piping and plumbing for electricity, gas and water supplies.

Electric Power Tools > Hitachi Electric Power Tools > Saws > Universal Workstation

UU610 Universal Work Station

The Hitachi Universal Workstation has been redesigned from the ground up, with a focus on increased cutting capacity and functionality. Made from 6000 series aircraft grade aluminum, the Workstation is designed to handle the toughest jobs. It is compatible with every miter saw on the market, including metal cutting chop saws.

Pneumatic Power Tools > Senco Pneumatic Tools > Senco Staplers

F75 Stapler

SENCO's F Series Staplers are widely used in packaging, display, and bedding applications where staples must be driven and clinched. Special throat depths are available for sisal models and packaging models. F Series Staplers provide excellent performance with a minimum of maintenance.

D Series Stapler

SENCO's extremely lightweight (2.7 lb) D Series Staplers are designed for packaging applications. D Series Staplers provide excellent performance with a minimum of maintenance.

MW

This powerful industrial use stapler is designed for rugged duty on-site or shed applications.

LS1

The LS pinners drive six popular lengths of 18-Gauge headless, slight- and medium-headed pins. The compact LS tools are designed for easy maneuverability in small places. They are lightweight for easy handling. The bottom-load magazine is quick to load. These easy-to-operate tools require minimum maintenance.

SC1

The versatile SENCO® SC1 tool drives three sizes of fasteners for stronger joints and fewer assembly operations. It is designed to do a wide range of wood fastening applications better, faster and cheaper.

PW200

Heavy Duty wide crown stapler capable of handling a variety of applications. Lightweight and well-balanced, minimizing operator fatigue.

PW150R Roofing Stapler

Heavy Duty wide crown staplers capable of handling a variety of applications. The Wide-crown staplers are lightweight and well-balanced, minimizing operator fatigue.

PW150

Heavy Duty wide crown stapler capable of handling a variety of applications. The Wide-crown stapler are lightweight and well-balanced, minimizing operator fatigue.

SFW10XP

This durable, fine-wire SENCO® air powered tool is designed for professional performance. Various SFW10XP models drive staples ranging in length from 5/32" (5 mm) # 5/8" (16 mm), and have excellent features for user comfort, resulting in greater production output.

SFW08

These lightweight, versatile Utility Staplers from SENCO® are ideal for both home improvement and upholstery projects. The staplers drive 22 gauge staples from 1/4" # 5/8".

SC2

The versatile SENCO® SC2 tool drives three sizes of fasteners for stronger joints and fewer assembly operations. It is designed to do a wide range of wood fastening applications better, faster and cheaper.

SQS55

The SENSICO® SQS55 Stapler has all the power and speed needed for the toughest 15-Gauge staple framing and sheathing applications. Designed with today's harder woods and laminates in mind, this rugged stapler will stitch the full line of SENSICO 15-Gauge staples.

SPS

This oil-less wide-crown stapler is popular for composite shingle application, general woodworking, and industrial fastening needs.

SNS50

The SENSICO® SNS50 Stapler has all the power and speed needed for the toughest 16-Gauge staple applications. Designed with today's harder woods and laminates in mind, this rugged stapler will stitch the full line of SENSICO® 16-Gauge staples.

SNS45XP

The lightweight SNS45XP Stapler is built to last. With 30% fewer parts and 15% more power than comparable tools, it's one stapler you won't want to put down. Weighing just 5.1 pounds, it has the best power-to-weight ratio in its class. Plus, it drives staples at a rate of 15 cycles per second.

SNS40

The SENSICO® SNS40 Rugged Duty Stapler is perfect for anyone with a need for speed! Its fast, multi-directional stitching is a major benefit in applications like ridge beams and all types of sheathing, where N13#N19 staples are the predominant fasteners.

SLS25XP

The ergonomically designed SLS25XP stapler from SENSICO® is powerful and versatile. This new-generation stapler weighs just 2.7 lbs, yet has the power to drive 1-1/2" staples into hard woods. Two models drive 1/4" and 3/8" crown staples in lengths from 3/8" # 1-1/2".

SLS20HF Flooring Tool

The lightweight SLS20HF tongue-and-groove installation stapler drives 1" to 1-1/8" staples at a perfect 45° angle every time and virtually eliminates tongue splitting and floor surface damage. Its front block easily adjusts for different floor thicknesses, while the industry-exclusive safety ensures accurate staple placement. This tool installs pre-finished tongue-in-groove products (1/4", 5/16", 3/8") and some of the 1/2" flooring brands.

SLS20

The ergonomically designed SLS20 increases quality and productivity in a wide variety of applications. The SLS20 stapler from SENSICO® is not only lightweight, it's powerful. This popular stapler weighs just 2.5 lb.

SLS18

The versatile SLS18 finish stapler weighs just 2.9 lbs, but can drive 1/2" # 1-1/2" staples into hard woods. With either a dual or restrictive trigger, you can choose between high productivity or precision placement, making it the ideal stapler for a wide range of applications.

SKS

The SENCO® SKS is available for use in a wide variety of woodworking applications. It is offered in a series of models that drive 2 different gauges and 3 different crown widths in lengths ranging from 5/8" to 1-1/2". It is the dependable, virtually maintenance-free stapler you can count on for the professional craftsmanship job you demand.

Pneumatic Power Tools > Senco Pneumatic Tools > Senco Nailers

Frame Pro 600 FRH

The FramePro® Full Round Head Nailers are the result of our award winning, feature loaded clipped head nailers now designed for Full Round Head nails. The FramePro® 600 FRH Nailer features an aggressive toe nail safety, rugged aluminum casting, power to drive full round head nails from 2" to 3-1/2" in 4 gauges (.113#.148), and an in-line magazine for superior balance and line of sight. All this and more backed by SENCO's One year warranty. Hard Work. SENCO® tools. Bring it on!

Finish Pro 41 XP

Extreme work calls for extreme tools, and the FinishPro 41XP is up to the challenge! With a variety of features designed to make any job easier, the FinishPro 41XP is ideal for the most demanding Pro.

Finish Pro 32

The FinishPro 32 is perfect for all finish needs. With its dual action or restrictive trigger mechanisms, high production work or precision work can be performed with the same tool.

Finish Pro 2N1

The FinishPro™ 2N1 is lightweight, flexible and loaded with features. The 2N1 offers both brad nailing and stapling in a single tool for maximum versatility. The FinishPro™ 2N1 drives 18 gauge brad nails from 5/8" # 1-1/4" and 18 gauge staples from 1/2" # 1".

Finish Pro 25 XP

thew The SENCO® FinishPro 25XP has redefined the brad nailer category! This lightweight, power-packed nailer is loaded with all the features you need, plus a few more. The FinishPro 25XP drives both slight and medium headed 18 gauge brads from 5/8" # 2-1/8" into the hardest woods. The on-tool power adjustment allows the user to increase power by 30%. All this, plus SENCO's exclusive NeverLube® design to keep your work surface oil free.

FinishPro® 18

Finish Pro 18

With its light weight, only 2.9 lbs, the powerful FinishPro 18 is tough enough to do the job, but light enough for all-day work. The FinishPro 18 brad nailer drives nails up to 2" into hard wood applications.

Finish Pro 10

This lightweight Micro Pinner is the perfect tool for all of your intricate finish and trim remodeling projects. The micro pins fasten the smallest of decorative trim securely and leave a nearly invisible hole # no splitting or puttying. The FinishPro 10 drives 1/2" #1" 23 gauge micro pins.

SCN65

The rugged-duty SENCO® SCN65 Coil Nailer is light enough for one-handed operation, yet is up to 25% more powerful. It can hold up to 275 nails (depending upon nail type) for maximum productivity in a wide variety of applications.

SCN60

The rugged-duty SENCO® SCN60 Coil Nailer is light enough for one-handed operation, yet is up to 25% more powerful. It can hold up to 275 nails (depending upon nail type) for maximum productivity in a wide variety of applications.

SCN56

The SCN56 Medium Coil Nailer is a superior siding tool that drives full round head nails from 1-7/8" # 2-1/2" in length and from .092 # .099 nail shank diameter. The SCN56 is a lightweight, rugged and dependable multi-purpose coil Nailer. The SCN56 coil Nailer has a unique mode of operation. The SCN56 allows the operator to select either a dual action or restrictive mode of fastening by simply switching the trigger # No need to change parts!

SCN45

The SENCO® SCN45 coil nailer is one of the lightest on the market (4.4 lb). The high nail capacity (375) of the SCN45 minimizes production interruption. The magazine canister top swings out so you can reload in seconds. An adjustable-height tray allows for quick change of nail lengths, permitting you to drive a broader range of nail lengths from 1-1/4" to 2".

SN70

The rugged and reliable Senco® SN70 pneumatic nailer drives home full 3-1/2" nails in hard woods; 2-1/2" hardened steel nails into green concrete - with power to spare. The versatile SN70 drives a variety of nails from 2" through 3-1/2" in length, with smooth, ring, or screw shanks. Its 30° angled magazine permits maximum maneuverability in tight work areas. It has an ergonomically designed handle for superior balance and operating comfort. Plus, the handle has an ergonomically designed grip that provides you with added comfort as well as a more secure grasp.

SN60MC

The SENCO® SN60MC nailer is designed for areas where codes call for metal connectors. The Precise Point Hole Locator System uses the nail point for faster and simpler hole location, increasing productivity by 50% over hand nailing. With its compact design and versatile magazine angle, the SENCO® SN60MC fits into tight spots to accurately fasten the full range of metal connectors. Its comfort-grip handle and easy two-step loading accommodate both left- and right-hand users. And, with the strongest, moisture-resistant fastener tape collation in the industry, it helps ensure full nail strips.

SLP20

The SENCO® SLP20 Brad Nailer drives both slight-headed and medium-headed brads in a wide range of lengths. As the result of extensive customer research, the SLP20 design ensures unmatched ease of use as well as superior precision and driving power, which makes the tool suitable for fastening a variety of material types and thicknesses.

SHF50

The new SENCO® SHF50 Pneumatic Hardwood Flooring Nailer is ergonomically designed with the hardwood installer in mind. It has a rugged composite base to virtually eliminate scratching and damage to the wood surface. It's also the industry's only pneumatic hardwood flooring nailer with a work contact safety, which is activated when the tool is positioned on the flooring tongue -- not by depressing a trigger.

SHF15

The SENCO® SHF15's ratchet system gives do-it-yourself, rental, novice and professional floor installers a multiple-hit tool with ample power to set nails. Nails not fully driven by the first blow remain positively positioned for additional strikes. It has a rugged composite base that virtually eliminates scratching and damage to the surface of both unfinished and prefinished wood. And at only 7.6 lb, the SHF15 is ergonomically designed with the hardwood installer in mind.

PRODUCT SNAPSHOT FASTENER TYPES

Frame Pro 751 XP

The New FramePro® 751XP nailer provides 15% more power than the FramePro 701XP. XtremePro models have improved internal and external features for improved durability and comfort. This compact framer is easy to handle, and easy on the arm. The 30° short, in-line magazine, provides excellent maneuverability and line of sight. This powerful framer drives a wide range of fasteners in four gauges (.113#.148) from 2"#3-1/2" to handle virtually any job. All XtremePro models are backed by a two-year warranty.

Frame Pro 752 XP

The New FramePro® 752XP Full Round Head nailer provides 15% more power than the 702XP. XtremePro models have improved internal and external features for improved durability and comfort, and more than enough power to drive the wide range of full round head nails, even common nails and an in-line magazine # all backed by a two-year warranty that makes the XP series the choice of Pros.

Frame Pro 702 XP

The New FramePro® 702XP Full Round Head nailer is designed with the Pro in mind. XtremePro models have improved internal and external features for improved durability and comfort, and more than enough power to drive the wide range of full round head nails, even common nails and an in-line magazine # all backed by a two-year warranty that makes the XP series the choice of Pros.

Frame Pro 701 XP

The New FramePro® 701XP nailer is designed with the Pro in mind. XtremePro models have improved internal and external features for improved durability and comfort. These compact framers are easy to handle, and easy on the arm. The 30° short, in-line magazine, provides excellent maneuverability and line of sight. These powerful framers drive a wide range of fasteners in four gauges (.113#.148) from 2"#3-1/2" to handle virtually any job. All XtremePro models are backed by a two-year warranty.

Frame Pro 652

Full round head nailers are the result of our award-winning designs and fifty years experience. These full round head nailers feature a toenail safety, rugged aluminum casting, power to drive a wide range of full round head nails, even common nails and an in-line magazine for superior balance and line of sight.

Frame Pro 602

Full round head nailers are the result of our award-winning designs and fifty years experience. These full round head nailers feature a toenail safety, rugged aluminum casting, power to drive a wide range of full round head nails, even common nails and an in-line magazine for superior balance and line of sight. All this and more for the Pro.

Frame Pro 601

Clipped head nailers provide all the important features you want at an affordable price. These compact framers are easy to handle, and easy on the arm. Their 30° short, in-line magazines provide excellent maneuverability and line of sight. These powerful framers drive a wide range of fasteners in four gauges (.113#.148) from 2"#3-1/2" to handle virtually any job.

RoofPro# 450

RoofPro 450 Coil Nailer is our Pro Series Roofing Coil Nailer. This construction grade tool has steel wear plates and has fully adjustable shingle guide, drive depth and exhaust.

A20 Hand Nailer

This tool weighs less than three pounds and fits into the palm of the hand, making it ideal for joust hangers, metal straps, and pole barn assembly. The A20 eliminates the possibility of marred work surfaces that often result from errant hammer blows, because slight hand pressure is all that's needed to activate this tool. Leather grip included.

SFN30 Finishing Nailer

The SENCO® SFN30 Finishing Tool has almost as many features as it does uses! Perfect for construction, furniture and cabinets, picture frames, and nailable plastic parts, the SFN30 is one pound lighter than the competition and 1.1 lb lighter than SENCO's SFN40. It's equipped with a handy belt hook that can be attached to either side of the tool for left or right handed users. An adjustable depth of drive countersinks nails to a consistent and controllable depth, and an adjustable exhaust helps provide greater comfort for the user.

SCN40R Roofing Nailer

The tough and dependable SCN40R straight-drive Roofing Coil Nailer eliminates tumbled nails. It's loaded with the features you asked for, yet is light enough for one-handed operation.

SCN40DW Drywall Nailer

The SCN40DW Drywall Coil Nailer eliminates crooked nails and shattered drywall. It's loaded with features that cut application time and increase reliability.

Pneumatic Power Tools > Senco Pneumatic Tools > Senco Combo Kits

PC0947 Finishing Combo Kit

Everything to get you started on the job is included in this one package and at a price that creates an excellent value.

this one package and at a price that creates an excellent value.

The FinishPro® 18 brad nailer is a versatile nailer for all your finish needs. FinishPro® 18 drives 18 gauge brad nails from 5/8" - 2".

PC0974 Micro Pinner Combo Kit

This lightweight Micro Pinner is the perfect tool for all of your intricate finish and trim remodeling projects. The micro pins fasten the smallest of decorative trim securely and leave a nearly invisible hole#no splitting or puttying. The FinishPro 10 drives 1#2" # 1" 23 gauge micro pins.

The SENCO PC1010 Compressor is a 1/2 hp, 1 gallon, oil-less portable air compressor. Its' lightweight, rugged design will satisfy the needs of the pro!

PC0973 Stapler Combo Kit

Everything to get you started on the job is included in this one package and at a price that creates an excellent value. The SFW08 3/8" crown stapler is a lightweight versatile utility stapler from SENCO ideal for both home improvement and upholstery projects. The SFW08 drives 22 gauge, 3/8" crown staples from 3/8" # 5/8".

The SENCO PC1010 Compressor is a 1/2 hp, 1 gallon, oil-less portable air compressor. Its' lightweight, rugged design will satisfy the needs of the pro!

PC0962 Framing Combo Kit

Everything to get you started on the job is included in this one package and at a price that creates an excellent value.

this one package and at a price that creates an excellent value.

The FramePro 602 Full Round Head Nailer is easy to handle and has excellent line of sight. This powerful framer drives 2" to 3 1/2" nails in gauges from .113 to .148.

The SENCO PC0967 Compressor is a 2 HP, 4 gallon, oil-splash portable air compressor. Its' rugged design will satisfy the needs of the pro!

PC0961 Framing Combo Kit

Everything to get you started on the job is included in this one package and at a price that creates an excellent value.

this one package and at a price that creates an excellent value.

The FramePro 601 Clipped Head Nailer is compact, easy to handle and has excellent line of sight. This powerful framer drives 2" to 3 1/2" nails in gauges from .113 to .148.

Everything to get you started on the job is included in this one package and at a price that creates an excellent value.

The FinishPro 32 16 gauge finish nailer is a versatile nailer for all your finish needs. FinishPro 32 drives 16 gauge nails from 1 1/4" - 2 1/2".

The SENCO PC0968 Compressor is a 1 1/2 hp, 2 1/2 gallon, oil-less portable air compressor. Its rugged design will satisfy the needs of the pro!

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Compressors

EC119 Portable 2.5 hp Peak Electric Air Compressor, Oil Lubricated

This portable compressor features a 4-gallon twin stack tank with control panel. The heavy-duty induction motor and cast iron cylinder pump combine for excellent dependability on the jobsite. Additional features including an onboard air-hose and cord wrap, simplify transportation.

EC12 Portable Electric 2hp Air Compressor, Oil Lubricated

The EC12 2 Hp Air Compressor effectively provides air pressure sufficient to support any pneumatic air-nailer.

EC129 Portable 3.5hp Peak Cart Style Compressor, Oil Lubricated

This 3.5 peak hp "cart" style compressor features a 15 amp induction motor with a large finned head, cast iron cylinder pump. Its protective roll cage design protects the pump and motor from harm, while a unique integrated control panel simplifies operation

EC189 1.5hp Electric Air Compressor, Oil Lubricated

The EC189 features an 8 gallon wheelbarrow tank for multiple nail operation and a Cast Iron pump for long life and dependable air production. The low RPM, oil lubricated pump and ball bearing mounted crank shaft ensure dependable performance at the worksite.

EC25E 5-1/2hp Gas Air Compressor, Oil Lubricated

Hitachi adds a new TWIST to its line of air compressors with its only gas powered air compressor, which boasts a Honda engine and can deliver 9 cubic feet per minute of air at 100 pounds per square inch.

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Staplers

N3804AB2 Finish Stapler, Narrow 1/4" Crown

The N3804AB2 Finish Stapler is used for internal and external trim work, furniture, cabinetry and other fine finishing applications.

N5008AC/P Construction Stapler, Standard Crown, 7/16#

The N5008AC Construction Stapler is used for construction work such as wall sheathing, roof decking, subflooring, mobile and modular home construction and making wooden boxes and expendable pallets.

N5024A Finish Stapler, Wide Crown 1#-2# x 16-Gauge

The N5024 Finish Stapler is ideal for lathing, sheathing and insulation installation. Its class leading weight (only 4.4lbs.), and cylinder valve firing mechanism provide a powerful response and less user fatigue.

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Utility Nailers

NV50A1 Utility Nailer, Light-Duty, Coil, Wire Collation

The NV50A1 Wire Collated Utility Nailer is used for the production of wooden boxes, light pallets, wooden furniture, wooden sashes, packing and crate operations in manufacturing plants and construction work such as prefabricated frames.

NV50AA Utility Nailer, Light-Duty, Coil, Plastic Collation

The NV50AA Plastic Collated Utility Nailer is used for construction work such as wall sheathing, roof decking and subflooring. This model is also ideal for mobile and modular home construction.

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Specialty Nailers

NR65AK-NR65AKS Strap-Tite Fastening System Strip Nailer

The NR65AK is used for fastening various types of pre-punched hole metal connectors to wood. The Strap-Tite Advanced Fastening System™ consists of the Strap-Tite™ NR65AK and Strap-Tite Fasteners™ combined with the Trackers™ Color Coded Fastening System.

NV50AG Drywall Coil Nailer, Plastic Sheet Collation

The NV50AG Drywall Coil Nailer is ideally suited for drywall fastening applications. Its ultra light weight and body design allows for maximum maneuverability in corners. The vertical nailing guide mechanism ensures straight true nailing.

NV50AP2 Pasti-Tacker Plus, Full Round Head, Coil, Wire Collation

The NV50AP2 Plasti-Tacker Plus is used to apply house wrap, roofing felt, insulation board and built-up, modified and single-ply roof decks. This model is not available in Canada.

NV65AC Pallet Nailer, Coil, Wire Collation

The NV65AC Pallet Nailer is used for construction work such as wall sheathing, roof decking, and subflooring, mobile and modular home construction, making of wooden boxes, pallets and drums, packing operations in manufacturing plants, and for other types of general packing and crating work.

NV65AH Siding Nailer, Coil, Wire/Plastic Sheet Collation

The NV65AH Siding Nailer #Another very light nailer, the NV65AH is a well-engineered tool. It's packed with great features like a tool-less depth adjustment and a 360-degree exhaust diverter. It will feed either wire- or plastic-collated nails. It also ships with a non-marring tip. Our experience with Hitachi nailers leads us to believe that this is one of the most dependable tools we tested. (Davis, #Tool Test: Siding Nailers: Side Winders#; Tools of the Trade Nov./Dec. 2000:42-51)

NV75AG Siding/Framing Nailer, Coil, Wire/Plastic Sheet Collation

Hitachi's New Lightweight Coil Nailer is designed to drive 3# nails which are the most commonly used length for framing, siding, fencing, decking and many other construction applications.

NV83A2 Full Round Head, Coil, Wire Collation

The NV83A Round Head Coil Nailer is used for construction work such as wall sheathing, roof decking, and subflooring, mobile and modular home construction, making of wooden boxes, pallets and drums, packing operations in manufacturing plants, and for other types of general packing and crating work.

VH650 Fencing Nailer, Full Head, Coil, Plastic Collation

The VH650 Fencing Nailer is used for general construction work such as assembly of pre-fabricated panels, nailing of shipping containers and cartons, and fabrication of general-purpose wooden-boxes.

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Roofing Nailers

NV45AB2 Roofing Nailer, Coil, Wire Collation

The NV45AB2 1-3/4" Roofing Nailer is used for various construction works such as the installation of asphalt roofing shingles and the installation of insulation boards.

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Finish Nailers

NT32AE Finish Nailer, 18-Gauge Brad 5/8#-1# x 18-Gauge

The NT32AE 1 1/4" Brad Finish Nailer is used for cabinet and picture frame assembly, furniture trim, on-site and mobile home trim and molding. NT32EC10 Kit also available.

NT50AE Finish Nailer, 18-Gauge Brad 3/4#-2# x 18-Gauge

The NT50AE 2" Brad Finish Nailer is #A long-time player in the low-cost nailer field, and a solid performer.# (#Low-cost Brad Nailers#; WOOD Magazine June 2000: 69-73) NT50EC10 Finish Nailer Kit also available.

NT65A3 Finish Nailer, 16-Gauge Finish Nails

The NT65A3 16 Gauge 2.5# Finish Nailer is used for finish-nailing of door casings, window casings, and similar frame assemblies, and for fastening of drawer bottoms and similar assembly work in the construction of various cabinets and cases.

NT65M 2-1/2", 16-Gauge Finish Nailer with Air Duster

The NT65M 2-1/2", 16-Gauge Finish Nailer is used for installing molding, chair rails, cabinetry and other fine finish applications.

NT65MA2 Angled Finish Nailer, 15-Gauge Angled Finish Nails

The NT65MA2 15-Gauge Angled Finish Nailer is used for the same applications as the NT65A3, but the compact body and angled magazine make for easier placement and operation in tight angles. The integrated air duster clears dust and dirt from the work site allowing for faster, accurate job completion.

Pneumatic Power Tools > Hitachi Pneumatic Power Tools > Framing Nailers

NR83A2- NR83A2(S) Framing Nailer, Full Head, Plastic Strip Collation

- 7.9lbs, lightweight and well balanced for easy maneuverability
- Tool-less depth adjustment, to control depth of drive
- 2-piece steel magazine, for replacement ease
- Open nose design, for easy extraction of a jammed nail
- Rubber grip, for added comfort
- Hardened aggressive toenail push lever, resists wear for prolonged life
- Selective actuation (ANSI Compliant), allows transition from single actuation to contact actuation
- Available without depth adjustment (NR83A2(S))

NR83AA3 Framing Nailer, Clipped Head, Paper Strip Collation

The NR83AA3 Clipped Head Framing Nailer is used for floor and wall framing, truss build-up, window build-up, etc. construction of subflooring and roof decking, wall sheathing and mobile home and modular house construction.

NR90AA Framing Nailer, Clipped Head, Paper Strip Collation

The NR90AA Common Clipped Head Framing Nailer is used for floor and wall framing, truss build-up, window build-up, etc. construction of subflooring and roof decking, wall sheathing and mobile home and modular house construction.

NR90AC3 Framing Nailer, Full Head, Plastic Strip Collation

Hitachi NAILS DOWN THE COMPETITION with the high-powered and long-lasting NR90AC3 Full-Head Framing Nailer. It is simple yet strong, possesses superior power and performance, and is ruggedly comfortable.

NR90AD 3-1/2" Clipped Head Framing Nailer

The NR90AD 3-1/2" clipped head framing nailer features Hitachi's new aggressive design and is the lightest nailer in its class. It is used for floor and framing, truss build-up, window build-up, subflooring, roof decking, wall sheathing and housing construction.
